

CSQ Short Courses Program.

As a recipient of Construction Skills Queensland's (CSQ) funding, TAFE Queensland are proud to support their ongoing financial and professional contribution to the Queensland building and construction industry.

The CSQ Short Courses Program provides funding for a range of competencies and skill sets for existing and unemployed workers in the civil construction and building and construction industries who want to update or expand their skills and knowledge in specific areas.

How does it work?

CSQ funding is paid directly to TAFE Queensland. Where CSQ funding doesn't cover the full cost of your fees, you will be required to contribute towards the remaining course fees.

What's on offer?

Eligible participants can access a range of accredited and nonaccredited short courses, with some courses forming part of full qualifications.

Accredited short courses

An accredited short course or skill set includes nationally recognised units of competency. These units may be applied as credits to a related qualification at a later date if you choose to study a full certificate or diploma. When you successfully complete your accredited unit/s you will be issued with a Statement of Attainment.

Non-accredited short courses

Non-accredited short courses are a great way to increase your knowledge and increase your skills. Upon completion of a non-accredited short course a Certificate of Attendance can be provided.

Eligibility.

To be eligible for funding, participants must be eligible workers or unemployed eligible workers (i.e. unemployed for less than 6 months) in the civil construction or building and construction industries in Queensland and are one of the following:

- An Australian or New Zealand citizen
- A permanent resident of Australia
- A visa holder with the right to work in Australia and who has been working in the Queensland civil construction or building and construction industry for 6 months or more (excluding international student visa holders)

Eligible workers must be employed in Queensland. Additional eligibility requirements may apply.

Funding Conditions

Funding is available for a maximum of eight CSQ funded Short Courses in total between 1 October 2024 and

30 September 2025. This includes a maximum of three high risk work and three mobile plant operator courses. All short courses studied count towards this maximum eight limitation.

Please contact TAFE Queensland for more information.

The Short Courses Program is an initiative of Construction Skills Queensland. Eligibility criteria applies to all CSQ funded programs. For more information visit [CSQ.org.au](https://www.csq.org.au)

Funding is available in select regional areas only and is limited and not guaranteed.

Apply now before it runs out.
